

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification

Product Identifier	BARE BONES LOW ODOR Low Odor All-Purpose Speed Stripper
Other means of identification	1051
Recommended use	Floor stripper.
Recommended restrictions	For commercial and industrial use only.
Manufacturer / Importer / Supplie	r / Distributor Information
Company Name	National Chemical Laboratories of PA, Inc.
Address	401 N. 10th Street - Philadelphia, PA 19123
Telephone	1 (215) 922-1200
Supplier Email	info@nclonline.com
Contact	CHEM-TEL
Emergency Phone	1 (800) 255-3924

Section 2 - Hazard(s) Identification

SDS Hazards and Warnings are based on the undiluted product. Refer to diluted SDS for Ready-To-Use Hazards and Warnings.

SDS Hazarus an	classification	Category	ay-10-0se nazarus a	ina wannigs.
Physical Hazards	Not Classified			
Health Hazards	Acute toxicity, inhalation	4		
	Acute toxicity, oral	4		
	Serious eye damage/eye irritation	1		
	Skin corrosion/irritation	1		
	Specific target organ toxicity, single exposure	3	TARGET ORGA irritation	N: respiratory tract
OSHA defined hazards Label Elements Hazard Symbol	Not Classified.			
Signal Word	Danger			
Hazard Statement	Causes severe skin burns and eye damage. Harmful if s	wallowed. Harmful if	inhaled. May cause	respiratory irritation.
Precautionary statement				
Prevention	Do not breathe mist or vapor. Wash thoroughly after h outdoors or in a well-ventilated area. Wear protective			• • •
Response	If swallowed: Rinse mouth. Do NOT induce vomiting. If Rinse skin with water/shower. If inhaled: Remove perso cautiously with water for several minutes. Remove con call a poison center/doctor. Wash contaminated clothi	on to fresh air and ke tact lenses, if presen	ep comfortable for l	preathing. If in eyes: Rinse
Storage	Store in a well-ventilated place. Keep container tightly	closed. Store locked	up.	
Disposal	Dispose of waste and residues in accordance with local	authority requireme	nts.	
Hazard(s) not otherwise classified (HNOC)	None known.			
	Section 3 - Composition/Information	ation on ingr	edients	
Mixture				
Hazardous Components	Ingredient Name		CAS #	%
	2-Amino Ethanol		141-43-5	5 - 10
	2-Butoxyethanol		111-76-2	25 - 45

Section 4 - First-aid Measures

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Dipropylene Glycol Monomethyl Ether

Benzyl Alcohol

34590-94-8

100-51-6

1 - 5

1 - 5

Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most Important symptoms /effects, acute and delayed	Burning pain and severe corrosive skin damage. May cause respiratory tract irritation. Headache. Nausea, vomiting. Irritation of nose and throat. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Causes skin and eye burns.
Indication of immediate medical attention and special treatment	Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General Information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.
	Section 5 - Fire-fighting measures
Suitable extinguishing media	Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed. The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This product is miscible in water. SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Do not taste or swallow. When using, do not eat, drink or smoke. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

Section 8 - Exposure control/personal protection

Section 10 - Stability and reactivity

Reactivity	Reacts violently with strong acids. This product may react with oxidizing agents.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Do not mix with other chemicals. Contact with incompatible materials.
Incompatible materials	Strong acids. Acids. Strong oxidizing agents. Oxidizing agents.
Hazardous Decomposition	No hazardous decomposition products are known.

Section 11 - Toxicological information

Information on likely routes of ex	posure
Ingestion	Causes digestive tract burns. Harmful if swallowed. May cause burns of the gastrointestinal tract if swallowed.
Inhalation	Harmful if inhaled.
Skin contact	Causes severe skin burns 2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged. These effects have not been observed in humans. Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.
Eye contact	Causes serious eye damage.
Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Headache. Nausea, vomiting. Irritation of nose and throat. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation.
Information on toxicological effect	ts.
Acute toxicity	Harmful if inhaled, absorbed through skin, or swallowed.
